

RAHISHREE CHETANKUMAR SHAH

FRONTEND DEVELOPER | B.TECH COMPUTER ENGINEERING

+91 8320088963 | rahishreeshah497@gmail.com | Github:rahishree79

PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong interest in building modern, scalable web applications. Proficient in React, JavaScript, and core programming concepts, with practical experience developing real-world projects. Quick learner with a problem-solving mindset, currently expanding skills in AI and Machine Learning. Seeking an opportunity to contribute to innovative teams while continuously improving technical expertise.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python, C, C++

Frameworks & Libraries: React.js, Tailwind CSS

Tools & Platforms: Git, GitHub, VS Code

Databases: MySQL, MongoDB

Core Concepts: Responsive Web Design, REST APIs, Component-Based Architecture, UI/UX Design, Version Control

EXPERIENCE

- Built and deployed Thunder Wheels — a modern bike-themed web application with responsive UI and smooth user interactions.
- Developed Quiz Maker — a React-based application that allows users to create, attempt quizzes, and track scores in real-time.
- Created Attendance Tracker — a web application to efficiently manage and monitor student attendance with a clean and user-friendly interface. Built and deployed **Portfolio Website** — a fully responsive personal portfolio using React.js and Tailwind CSS.
- Strengthened practical skills in HTML5, CSS3, JavaScript, React.js, responsive design, and GitHub workflows.

PROJECTS

Thunder-Wheels website | *HTML • CSS • JavaScript • Vite*

- Developed Thunder Wheels — a modern, responsive web application featuring a visually appealing bike-themed interface and smooth user experience.
- Built reusable UI components and ensured cross-device compatibility using responsive design principles.
- Focused on performance optimization and clean UI/UX design to enhance user engagement.

Quiz Maker — Quiz making Platform | *HTML • CSS • JavaScript*

- Built Quiz Maker using React — enabling users to create, attempt, and evaluate quizzes with real-time score tracking.
- Managed application state efficiently to handle dynamic questions, user inputs, and result generation.
- Focused on responsive design and interactive UI to enhance usability and user engagement.

Attendance Tracker - | *HTML • CSS • JavaScript*

- Built Attendance Tracker — a web application for managing and tracking student attendance efficiently.
- Implemented dynamic data handling to record, update, and display attendance information.
- Focused on intuitive UI design and responsive layout to ensure seamless user experience.

Personal Portfolio | *React.js • Tailwind CSS • Vite*

- Fully responsive portfolio built with React.js, Tailwind CSS, and Framer Motion animations.
- Features splash screen, AI chatbot assistant, project modals, resume viewer, and contact form.

EDUCATION

B.Tech — Computer Engineering

2023 – Present

CVM University (MBIT College), Anand, Gujarat | CGPA: 7.84

Core Subjects: C, C++, Java, Python, DBMS, Data Structures, OS, Computer Networks, COA, DAA, Web Development, Software Engineering

Higher Secondary — 12th Science (PCM + Computer Science)

12th Standard

St.Mary's Higher secondary School,Petlad, Gujarat | Subjects: Physics, Chemistry, Mathematics, Computer Science

Secondary Education — 10th (Technical Stream)

10th Standard

St.Mary's High School,Petlad, Gujarat | Subjects: Mathematics, Science, Computer, Social-science, Sanskrit, English

ACHIEVEMENT & CERTIFICATION

Hackathon Participant |

- Selected participant in Smart India Hackathon (SIH), contributing to team-based development of innovative solutions for real-world challenges.
- Successfully managed a food stall at Gyanotsav, demonstrating teamwork, communication, and basic operational management skills in a dynamic environment.
